Data & Analytics Apprenticeship

Our Data & Analytics programme focuses on providing value to Chaucer by providing trusted data to enable data-based decisions. It will enable the successful candidate to provide analytical products to the business. The candidate will be using a variety of tools including but not limited to SQL Server, Tableau, DQ tools, Excel and Power BI. This role will provide the opportunity to source, format, and present data to the business in a secure manner. Reporting to the Head of Analytics you will be mentored and supported in your duties which will involve collecting, analysing, and presenting data for the business to use. During the apprenticeship, you will have the opportunity to work with other roles including Data Engineering, Data Quality and Information Security.

Key Duties

- Work with Head of Analytics to gather analytic requirements from the business
- Identify data sets to meet requirements and work with data engineers to obtain data for analysis
- Create Dashboards/Data Sets to meet business requirements
- Utilise Data Quality tools to identify and clean poor quality data
- Work with business to clean data to create accurate output
- Support data governance framework by following guidelines

About you

‘Be inspired and challenged in a collegiate and supportive working environment.’

About You

- A data enthusiast with 5 GCSEs (A* - C, 4-9) must include Maths and English. Technology and Maths related subjects would be beneficial

Personal Qualities

- Inquisitive learner who enjoys and excels at identifying patterns in any body of data and wants to develop a career of data analysis and study towards the Level 3 Data Technician Apprenticeship programme certified by The British Computing Society
- Strong A-Level or equivalent grades would be beneficial
- A proactive and “can do” approach is key to the successful outcome for the department and this role
- Prioritisation and planning is a key feature of this role, and the role requires that the individual should be able to manage their time to provide successful outcomes
- Curiosity and hunger to learn

Skills Required

- A passion for telling data stories through visualisation tools such as Microsoft Excel and familiarisation of MS Teams would be helpful
- Excellent organisational and communication skills with the ability to operate in a fast-paced, changing environment
- Keen attention to detail
- Knowledge of Microsoft Office would be useful

How to Apply
